

Miles Testimonial;

This is a testimonial about the exceptional workmanship of this company. We had our bathroom floors re-tiled by Old Town Tile and we were so glad we chose this company to do the work for us. They were very competitive in their bidding process and were very thorough in the bidding of the job. Besides the measuring and estimates of costs, Ron also told us everything extra he would recommend done to complete the job we wanted. He prepared a much better bid with more insight into a better quality of job completed than the other two competitors we had who bid the same job. When the job was started, Ron made sure that those working for him showed up on time and completed the work to our satisfaction. Even before the first tile was layed, he made sure we were happy with the color and design of tile we chose by laying down more than one tile to see the effect. He allowed us to choose the color of grout to be used and once again made sure we were happy before completing the entire job. The crew he had working for him were the most courteous workers I have ever had in my home. They made provisions to protect our existing carpets they had to cross and at the end of the day, they cleaned up their messes completely!! They worked very hard every day but took time to do an exceptional job. I can attest that the quality of work from this company is top notch and the courtesy of the workers was superior. I would highly recommend that anyone wanting to have a quality company do some remodeling in their home to consider hiring Old Town Tile to do the work.
